Western Lake Erie Conference March 29th Lakeside-near Port Clinton

Western Lake Erie... the Great Lakes Warmest, Shallowest, 'Fishiest' Waters

2007 Conference – Western Lake Erie Rivers, opportunities and framework to preserve, restore and protect ... "Nature has destined the waters of this Lake(Erie) to supply this country with fish.....the quantity of fish taken at Fort Meigs was most surprising. Some days there were not less than 1,000 to 1,500 of an excellent kind taken with the hook, within 300 yards of the Fort. No one can visit this spot and not be charmed by its appearance and the advantages of its situation"..... History of the City of Toledo and Lucas County, Ohio 1888 Clark Waggoner

Sponsors:
